I have no concerns about creating such a web page, if there's not always a page we can put this on.

Sorry. OPA is asking about the status of a CA DOGGR UIC webpage where we would put the background of the issue, key documents (letters and other attachments as we see fit) and some Qs and As. If DOGGR is not releasing the plan, then OPA wants it to go on the our website.

I sent David a draft outline of a webpage. I can turn this around quite quickly once the Team approves the approach/content.

Steve Bohlen of DOGGR indicated to me and Mike in a call late yesterday that they consider the plan public, but we didn't get into how they would be providing it. I'm not sure what your last sentence is asking.

Jane – did you get confirmation from DOGGR that they will release the Plan to media? I talked to Suzanne and she said that OPA is waiting to hear back from Dept of Conservation to confirm approach. However, it appears that Kelly did get an indication from DoC that it will release the plan to reporters by request only. So it appears that at this time, EPA will refer all media requests for the Plan to DoC. However, if we hear back from media outlets that they are not getting the Plan, OPA will release it.

Also, OPA really wants us to put a webpage together that they can direct people to for at least the July and Dec letters. I have a call with Bonnie today to give her a heads-up. What is our plan to the web page?

Jane –
